I'm a Front-end Web Developer interested in animations, accessibility, and (web) apps. I seek to approach problems, bugs, and unfamiliar challenges through creativity, curiosity, and constancy.

SKILLS

- Experienced with JavaScript, HTML, and CSS

- Comfortable with jQuery, React, Tailwind, and Foundation

- Familiar with Gulp, Anime.js, and ReactNative

- Quick learner, efficient communicator

- High attention to detail

WORK EXPERIENCE

Front-end Web Developer | 5/2019 –

Seven Figure Publishing | Baltimore, MD

Responsible for building and maintaining order forms, signup pages, and landing pages. Collaborated with designers, developers, writers, and marketers. Trained and managed new developers

- Moved the company from Foundation to a custom, leaner stylesheet

- Wrote and compiled documentation for common patterns and tasks

- Wrote date swap functions that automated tedious deadline updates

EDUCATION

Bachelor of Arts

Goshen College, Goshen, IN | 2000-04

Major: Music | Minor: Writing
